PROFILE

IT and cybersecurity lead for a two-vessel DP2 offshore fleet in the Gulf of Guinea, with a record of measurable outcomes: cybersecurity maturity raised from 1.5 to 2.3/5 (NIST CSF 2.0), satellite-connectivity spend cut about 90% below budget, and 99.9% shore-network uptime. Builds the governance (IMO MSC.428(98), ISM and ISPS Codes), the systems (budgeting, procurement, safety reporting) and the people programmes that make them stick. Also covers technical-superintendent duties and serves as Alternate Company Security Officer. ISC² Certified in Cybersecurity (Dec 2025). Rated Outstanding in the H1 2026 performance review.

CORE STRENGTHS

Maritime cyber risk and GRC • NIST CSF 2.0 and ISM/ISPS alignment • OT/IT convergence and SATCOM (Starlink, Inmarsat C, LRIT, VSAT) • IT policy and procedure design • Vendor and OEM management • OPEX budgeting (BIMCO) • Process automation (Python, TypeScript, Power BI) • Security awareness training

EXPERIENCE

IT Lead (P3), Vessel Digital Ops & Cybersecurity | Jetense Consultants Limited, Port Harcourt (marine consultancy and ship management) *Apr 2026 – present*

Concurrent roles: Acting Technical Superintendent (Sep 2026 – present); Technical & Executive Assistant to the MD (Jul 2024 – present); Alternate CSO.

Cybersecurity and governance

- Raised cybersecurity maturity from 1.5 to 2.3/5.0 (NIST CSF 2.0) through a self-initiated audit of shore IT and vessel OT, then a 20-action remediation roadmap targeting Tier 3 by Dec 2026.
- Led a Vessel Cyber Risk Assessment across six threat scenarios for two DP2 vessels (ISPS Code Section 5, MSC-FAL.1/Circ.3); identified two high-risk items and set a prioritised treatment plan.
- Authored a 10-policy IT and cyber security suite with procedures, three incident-response playbooks, forms and a risk register, structured as a controlled Safety Management System section aligned to IMO MSC.428(98) (submitted for executive approval).
- Launched the company's first Cybersecurity Awareness Month (Oct 2026): a 21-episode micro-learning series for shore and vessel crews. Wrote the AI Usage Policy and ran security reviews of third-party and AI tools, including a vendor app review (8 defects, 3 critical).

Cost, systems and operations

- Cut fleet satellite-internet spend about 90% below budget in H1 2026 by actively managing Starlink Ocean Mode on both vessels.
- Built a BIMCO-coded OPEX budgeting system (414 accounts, six departments) with automated VAT, markup, fleet consolidation and variance reporting; designed the fleet procurement master tracker (requisition to delivery note) used by Technical, Accounts and vessel Masters.
- Replaced paper safety-observation cards with a QR-code mobile workflow across the office and fleet: 168+ cards logged in a single week.
- Sustained 99.9% shore-network uptime and 98%+ fleet satellite uptime while managing Starlink, Inmarsat C/LRIT/SSAS and DGPS services; migrated company documents to SharePoint/Teams and built the IT asset register and the company's first IT budget.

Technical superintendency (acting) and management office

- Rebuilt the 2026 dry-dock plan into a yard-ready 112-item specification and valve register; the review found 9 valve items missing from the original plan. Produce the weekly Technical and IT management reporting.
- Supported the OVMSA audit to finding close-out, prepared tender and regulatory submissions (NIPEX, NCDMB, NIMASA), and drafted charter parties and a SHIPMAN 2024 technical-management agreement.

Systems & Information Officer | Jetense Consultants Limited *Sep 2023 – Jul 2024*

- Deployed and maintained Smart Vessel (PMS) software across the offshore fleet; designed backup systems with zero data loss; delivered monthly crew training on system updates and cybersecurity.

SAP S/4HANA Support Analyst (contract) | International Breweries Plc (AB InBev Africa), Port Harcourt *Oct 2019 – Feb 2020*

- Level-3 support lead for about 10 SAP S/4HANA users; analysed equipment-maintenance data, standardised remediation procedures and updated support documentation.

Earlier career | Agronomy, scientific data operations and IT support *2016 – 2023*

- Data Analyst and IT Support, Serenity Legal Union and Partners (2021–22): built an electronic filing system and trained staff in Microsoft Office. Data analytics instructor, Upsurge Leadership Foundation (2021). Agronomist & scientific data roles at Barogu Farms, TopCove Farm and Viam International (2020–23).

CERTIFICATIONS AND TRAINING

- ISC² Certified in Cybersecurity (CC), Dec 2025 | ISPS Company Security Officer proficiency (2024) | PMI Project Management in Entrepreneurship (2020)
- Vector Institute: Machine Learning, and Excel to AI (2022–23) | NIIT Diploma in Data Science (2019) | Smart Vessel PMS administration and voyage planning (2026)

EDUCATION

- MSc Plant Breeding and Genetics, Michael Okpara University of Agriculture, Umudike (2023 – present; thesis defended October 2026, post-defence corrections in progress for final conferral)
- B.Agric Agronomy, Michael Okpara University of Agriculture, Umudike (2013–2018): Second Class Upper, CGPA 4.32/5.00 (WES evaluation: 3.32/4.00, Cum Laude)

SELECTED PROJECTS

- ISM Code ↔ NIST CSF 2.0 Crosswalk (open source, MIT): maps 21 CSF 2.0 subcategories to the ISM Code, MSC.428(98), MSC-FAL.1/Circ.3/Rev.3 and BIMCO 5th edition, and flags six gaps. kelvinuduma.github.io/ism-cyber-crosswalk
- Microsoft Graph MCP server (TypeScript, 20 tools): connects Outlook, Calendar, OneDrive, Teams and SharePoint to AI assistants, with prompt caching and encrypted token storage.

SKILLS AND TOOLS

Frameworks: NIST CSF 2.0, ISM and ISPS Codes, IMO MSC.428(98), MSC-FAL.1/Circ.3, IACS UR E26/E27, BIMCO Guidelines, OCIMF OVMSA. Technology: Microsoft 365 (admin), Starlink, Inmarsat C, SAP S/4HANA, Power BI, Excel. Programming: Python, TypeScript/Node.js, SQL, R, PowerShell. AI: Claude API, MCP, prompt engineering.

COMMUNITY AND RECOGNITION

WEF Global Shapers Port Harcourt Hub, Vice Curator (2023–24) and Alumni Lead (2024–25) | Climate Reality Leader (2020–present) | YALI Emerging Leaders, Dakar (2020) | NextGeneration Food Hero, CropLife International (2022) | References available on request.
